

CLUC Minutes 5-17-10

Attendees: Mike Paros, Robyn Herring, Rich Davis, Mark Kormondy, Paul Smith, Maryam Jacobs

Recorder: Rishel Gordham

Guest: Scott Morgan

Approval of Minutes

The minutes from May 3, 2010 do not reflect Rich Davis' edits.

ACTION ITEM: Emily Sladek will make changes and send out new minutes to CLUC members.

The minutes from April 19, 2010 are approved.

Discussion about Gardens on Campus (Scott Morgan)

The Climate Action plan addresses reducing water etc. Scott wants to coordinate a centralized process of what is going where and how its going to be managed over time. Currently there are 12 gardens across campus. Scott indicates that there is a multitude of proposals: forest garden, orchard, etc. Scott doesn't want gardens to be unattended once interested students leave.

The Committee suggests a meet with the CELL group, Steve Scheuerell, and Martha Rosemeyer.

The Committee discussed how gardens would be maintained in the future and the type of criteria that would be used to assign potential plot space, etc.

The Committee suggested that Scott talk to the Cell group then come back to the CLUC with faculty sponsor and the potential sites located. The the committee will discuss if the sites seem plausible.

ACTION ITEM: Scott will meet with Mark Kormondy to develop the potential criteria for future garden proposals.

<Scott left at 3: 35pm>

Other Items:

Organic Farm Master Plan: Paul stated he had not read the Organic Farm Master Plan yet, so he didn't have any questions at this point. Mike stated that the meeting to discuss the Organic Farm Master Plan would be on Monday, May 24. Members briefly discuss faculty working on Farm Master Plan concepts over the summer/fall.

ACTION ITEM: Emily will send out emails to ask committee members who did not receive copies and then send them.

Dead Trees: There is a dead tree in B lot.

ACTION ITEM: Mark will send location of dead trees to CLUC members.

The next CLUC meeting will be on Monday, June 21 from 3-5pm in the Facilities Conference Room.
