

Health and Safety Committee Meeting Minutes
February 2nd, 2011

Looking for another student representative → possibly from the CRC

What's up with the Zombies?

- Trash accumulating in parking lots at an accelerated rate.
- Unaccompanied minors?

Wanting to move the smoking shelter away from the Health Center

- All of the pods are gone except one that is staying.

Smokers still constantly smoking on red square.

- Possibly send out e-mail reminding staff and students that this is a "no smoking campus".
- The smoking cessation (organization that helps you quit smoking) is sadly ending June 30th.

New EHS Committee Report

- Between 11/01/11 and 02/01/11 there have been 15 incident reports
- If an employee is injured while working on the jobsite they cannot see the Evergreen Health Center (they are not covered for liability)
- The worker MAY go as a non-work comp. claim and possibly go where they are covered later and get reimbursed
- Preferred method is to receive treatment off campus, filing an L&I claim at the same time.

Internship: Sara Teshome via Cheri Lucas Jennings

Ideas:

- Health Center → handles more illness than injuries and she is looking for at least 15 hours per week.
- Barrier breakers ADA compliance?
- Check up with her she might have already found something else.

What happened with the refurbishment of the CAB elevator?

Outdoor lighting is a problem. The lift for the sycamore should be here today hopefully.
