Level of Connection to Other Students and the Evergreen Community

Students were asked to indicate their level of connection to other students in their classes and their connection to the Evergreen community. The most common response among Olympia campus respondents was that they felt "quite a bit" connected to other students in classes and "moderately" connected to the Evergreen community. The mean and median responses were higher for the degree of connection to other students than for connection to the Evergreen community as a whole. A little over 21% of first-time, first-year respondents were "Not at All" or "A Little Bit" connected to other students in their classes, while almost 33% said that they felt "Not at All" or "A Little Bit" connected to the Evergreen community.
