

# THE EVERGREEN STATE COLLEGE

## Mathematics Endorsement Only

### Coursework for Endorsement-only Strand in Mathematics

Course Title	Credits
How students learn: Supporting diverse learners - Summer, Year 1	9
Rational numbers: How students learn mathematics - Summer, Year 1	4
Algebraic thinking: Pedagogies that support all student learning, including English language learners - Fall, Year 1	4
Probability and statistics: Creating an inclusive mathematics learning environment - Winter, Year 1	4
<i>Additional course credits depend on background related to endorsement competencies and whether the candidates seek secondary or middle level endorsement</i>	<i>(based on individual student needs identified at admission)</i>
Calculus	4
Discrete mathematics	6

The number of credits needed relative to the mathematics endorsement competencies will be determined in consultation with the M.Ed. Director and the Certification Officer upon admission. Number of credits will depend on the candidates' background. Endorsement depends on the student also achieving a passing score on the appropriate WEST-E examination.

# THE EVERGREEN STATE COLLEGE
