

Student Affairs Indicators from Institutional Research and Assessment (AY 2016-17)

Surveys Used in This Summary

The Evergreen Student Experience Survey

The Evergreen Student Experience Survey provides an opportunity to assess students' experiences at Evergreen and provides information about students' satisfaction with Evergreen's learning environment, learning growth in various skill areas, goals for their college experience, level of confidence, use of campus resources, and participation in community activities.

This survey is administered every two years in the spring by the Office of Institutional Research and Assessment. It is administered to a stratified random sample of Evergreen degree-seeking undergraduates as well as all respondents to the New Student Survey administered in the fall of the same academic year and all students in the Tacoma, Grays Harbor, and Tribal: Reservation-based/Community-determined programs. This summary presents the 3 most recent surveys of the *Olympia campus stratified random sample only*. The spring 2017 survey is ongoing, thus results for this section will be updated in the next edition of the Student Affairs Indicators. The number of participants and response rates for each included survey are detailed in the following table:

	2011	2013	2015
Number of Respondents	303	242	202
Response Rate	25%	20%	17%

The National Survey of Student Engagement (NSSE)

The NSSE assesses student engagement in educational practices that are associated with high levels of learning and development.

This survey is administered by the Indiana University Center for Postsecondary Research in cooperation with the Indiana University Center for Survey Research. NSSE went through a major reorganization in 2013, creating new questions and removing others. Evergreen seniors and first-year students participate every two years, alternating with the Evergreen Student Experience Survey. This summary presents both first-year and senior student data for the last four administrations; the NSSE indicator section is updated to include 2016 results. The number of participants and the response rates are detailed in the following table:

	2012	2014	2016
First-Years			
Number of Respondents	123	86	111
Response Rate	20%	14%	16%
Seniors			
Number of Respondents	247	181	152
Response Rate	28%	22%	21%

The Evergreen One-Year Alumni Survey

The Evergreen One-year Alumni Survey assesses alumni perspectives of their experience at Evergreen one year after graduation. The survey measures alumni satisfaction with their educational experiences and campus resources; gathers employment, graduate school, and volunteerism post-graduation; and assesses how well they feel Evergreen contributed to their personal growth and preparation for the work force and further study.

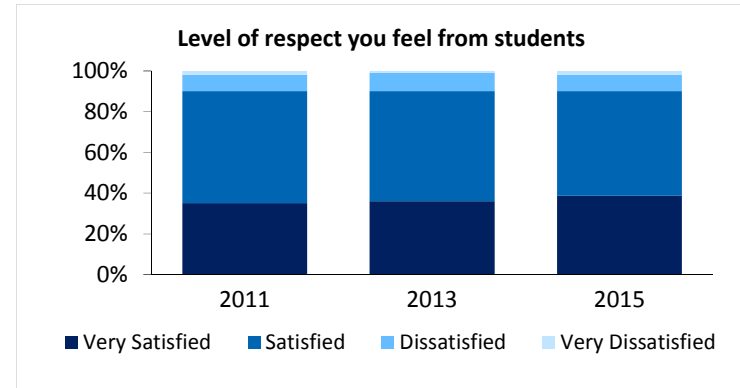

This survey is administered by the Office of Institutional Research and Assessment every other year to all undergraduate degree recipients one year after graduation. The number of participants and the response rates for the 4 most recent surveys are detailed in the following table; indicators now include Alumni Survey 2016 results:

	2012	2014	2016
Number of Respondents	290	276	301
Response Rate	24%	23%	29%

Student Affairs - Evergreen Student Experience Indicators
 next update will be for AY 18-19 indicators to include ESES 2017

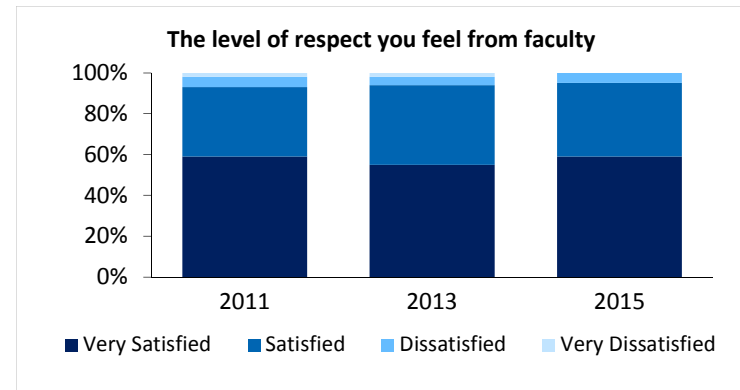

This year, how satisfied are you with the level of respect you feel from students
