

## FOOD VENDOR APPLICATION INFORMATION

**Due to construction on the Library Building, vendor spaces located under the overhang next to the building have been eliminated this year. We are working hard to relocate those spaces affected. And as always, please be prepared for inclement weather when planning for Super Saturday.**

The Super Saturday Committee at The Evergreen State College cordially invites you to apply for a space for **Saturday, June 17, 2006** to sell your most interesting food items. With more than two hundred food and crafts vendors, *Super Saturday is Washington state's largest one-day festival.* Super Saturday hours are **10:00 a.m. to 6:00 p.m.**

**To Apply:** Fill out the enclosed application form, sign at the bottom and enclose a check made out to TESC Super Saturday. See TYPE OF SPACE AVAILABLE (other side) to determine the correct fee for your booth.

**Send to:** The Evergreen State College  
Food Chair - SE 2150  
2700 Evergreen Parkway NW  
Olympia, WA 98505

**Deadline:** **Friday, March 31, 2006. Applications will be accepted until booth spaces are filled.** Applications will not be considered if either the signature or the check is missing. Your check will be returned promptly if you are not selected this year.

Each year we provide a limited number of spaces with 120 volt, 20 amp single circuit power for food vendors. These circuits are available within ten feet of the booth space. The plug-in box has four outlets for standard 120 volt three prong plugs. To determine your electrical needs, locate the tags on each piece of your equipment that states how many amps and volts are required to operate that piece of equipment. (Because the college supplies only 120 volt power, anything requiring higher voltage will not be usable at this event.) Add the amperage requirements for each piece of equipment together to arrive at the total amps you will need.

For example, a deep fat fryer might use 12 amps, a refrigerator might use 4 amps for a total of 16 amps. This means you would require a space with one 120 volt, 20 amp circuit. If your equipment requires up to 32 amps, request a space with two 120 volt, 20 amp circuits. Keep in mind that each 20 amp circuit can handle only 16 amps continuously...if you try to overload it, you will experience constant interruptions in service. Be sure to request an adequate power supply in your application as the college only has a limited supply, and it will be impossible to get more on Super Saturday.

**NOTE:** Power is limited and additional circuits cannot be supplied on the day of the event. In the past we have experienced a large number of tripped circuits because extra appliances were plugged into power strips or non-power booth vendors "borrowed" a plug from a neighboring booth. Just because there are four outlets in a power strip, that does not mean four appliances can be plugged into it. That's why it is important to calculate the number of amps your equipment needs to operate...this ensures that vendors with powered booths will be able to maintain operations.

**NOTE: NO GENERATORS WILL BE ALLOWED ON CAMPUS**

See next page for TYPE OF SPACE AVAILABLE

The Evergreen State College ♦Super Saturday ♦2700 Evergreen Parkway NW ♦Olympia WA 98505 ♦360.867.6001♦  
supersaturday@evergreen.edu

**TYPE OF SPACE AVAILABLE:**

Single Booth Non-Electric	15' x 8' (No Power)	\$275.00
Double Booth Non-Electric	25' x 8' (No Power)	\$300.00
Standard Booth	15' x 8' (One 120 volt, 20 amp circuit)	\$375.00
Standard Booth	15' x 8' (Two 120 volt, 20 amp circuits)	\$400.00
Double Booth	25' x 8' (One 120 volt, 20 amp circuit)	\$450.00
Double Booth	25' x 8' (Two 120 volt, 20 amp circuits)	\$475.00
Trailer Space	25' x 8' (One 120 volt, 20 amp circuit)	\$500.00
Trailer Space	25' x 8' (Two 120 volt, 20 amp circuits)	\$525.00
Trailer Space	30' X 8' (Two 120 volt, 20 amp circuits)	\$550.00

Please note that fees help cover the cost of providing and maintaining the wash trailer to Thurston County health standards. Also note that the depth for all booth spaces is 8'. The college has allowed an additional 2' for serving areas which may be covered by an awning; the maximum depth for any booth space is, therefore, 10'. **Because the college must maintain fire lanes as well as adequate room for foot traffic, this width will be strictly enforced.** Awnings or serving areas exceeding this width will not be allowed.

**Selection of Vendors:** Super Saturday has always attracted high quality food vendors. This year we plan to continue our efforts to provide the greatest variety of quality food. We are interested in selecting experienced vendors with past success at Super Saturday, but we are most interested in encouraging vendors who have no electrical requirements and local non-profit groups who will emphasize the spirit of community celebration. Non-electric and 20 amp standard booth spaces will be provided for currently registered students and TESC sponsored campus groups at half the listed price. Proof of status must be provided at time of application by submitting a copy of either the group's bylaws or validated identification.
