Subject: Two staff members test positive for COVID-19 – Olympia campus

This morning, we learned that two Evergreen staff members tested positive for COVID-19 after working at the bookstore last week. Given the information the COVID-19 team has, we believe there is low risk that others on campus were exposed.

What we know

- The exposure period and location was 11/1/21 through 11/4/21 at the Greener Bookstore.
- All Greener Bookstore employees have been compliant with college COVID health and safety requirements.

What steps have been taken

- Staff who are known to have been in close contact with two individuals have been notified.
- The exposed employees have been in contact with their supervisor and the COVID team, and will continue to be on contact throughout their recovery process to ensure that they receive the care they need.
- Exposed employees have been directed to follow DOH guidelines for exposure to COVID-19.

Recommended steps and precautions

- If you meet the CDC definition of having "[close contact](#)" in the bookstore during this exposure window, please monitor yourself for symptoms carefully and reach out to your health care provider and [COVID-19 team](#).
- If you need support, have questions, or believe you have otherwise been at risk, please contact: COVID@evergreen.edu

More information, including any adjustments to Greener Bookstore operations, including hours and services, will follow as it becomes available.

Thanks for your help in keeping our community safe! Please continue to take care of yourself and others.
