

Affidavit

I _____, understand that it is a requirement as part of the residency reclassification process, that copies of tax returns, and W2s for the current tax year and previous tax year be provided. Since the returns for the current tax year could not reasonably be expected to be prepared in time for the quarter to which I am applying, I am providing this affidavit instead.

I understand that this affidavit does not replace the required forms and need to submit copies of these documents no later than the filing deadline for the current tax year. I also understand that this is a requirement of the residency application process. If I fail to submit the required documents there is a high probability for a reversal of the residency approval and I may be responsible for paying non-resident tuition rates for tuition.

Please initial the section that applies to you:
