-  Available Timber Harvest Planning Areas (as of 6/11/02)
-  Harvest Units currently under formal or informal USFWS consultation as of 06/10/02
-  Conservation Easement Areas
-  Major Rivers and Streams
-  Principal Watersheds

The planning areas shown depict all merchantable timber greater than or equal to 35 years of age. The total board-foot volume contained in all of these planning areas significantly exceeds the total volume available under the aggregate Annual Allowable Cut. Actual harvesting will not exceed the total aggregate Annual Allowable Cut for the plan period.

Timber Harvest Planning Areas contain riparian zones, which are not depicted at this scale.
