

The Evergreen State College
Evergreen New Student Survey 2007
Olympia Campus

Which location do you plan to attend for all or most of your Evergreen studies?

Students were asked, "Which location do you plan to attend for all or most of your Evergreen studies?" Responses to this question were used along with data from Evergreen's BANNER data system to disaggregate responses of Olympia campus students from the responses of other students. There were 897 respondents to the survey who indicated that they planned to attend all or most the time on the Olympia campus.

First-time, First-years

There were 537 first-time, first-years who indicated that they planned to study on the Olympia campus all or most of the time. There were also two first-time, first-year students who were studying on the Olympia campus according to registration records, but indicated on the survey that they planned to study in the Tacoma Program. Because, these students are first-time, first-years, and the Tacoma Program is upper division, the responses of these students were included as Olympia Campus first-time, first-years in analyses.

Transfer Students

There were 360 new transfer students who indicated that they planned to study all or most of the time on the Olympia campus. There were three transfer students who indicated that they planned to study at Grays Harbor. Students generally study on both the Olympia and at Grays Harbor at the same time and the number of students at Grays Harbor was too small to present separately. The total number of Olympia campus transfer students in the following analyses is 363.

Which location do you plan to attend for all or most of your Evergreen studies?

	Olympia First-time, First- year Students (N=539)	Olympia Transfer Students (N=363)
Olympia	99.6%	99.2%
Tacoma	0.4%	0.0%
Grays Harbor	0.0%	0.8%
