**Parents' Income**

Tacoma students were asked to give a best estimate of their parent or parents' total income last year. This question was asked of all Tacoma students, even though 88.0% reported no financial support from parents or other relatives. Responses to this question are the best estimate of parents' income and may not accurately reflect parents' actual income. A total of six Tacoma students skipped this question.

What is your best estimate of your parent or parents' total income last year? (Consider income from all sources before taxes.)
