I would like to attempt an MFA in Creative Writing. Also, I would like to pursue a PhD in Comparative Literature.

Ideally, go on to either a Masters or Doctoral program.

If plausible, continue on to earn my masters degree..if that is not financially possible, than I would at least like to be able to move toward a more fulfilling profession than the one I am currently in.

I'm not really sure right now, I'm thinking of continuing on to get my Master's Degree, if that doesn't work out I'll probably start working on trying to get my ideas for work started.

Law school for environmental law.

Masters (maybe PHD) is psychology perhaps eventually medical school

Master's degree [n=4]

Masters or Law degree

Master's Program

Most likely attend graduate school to get a Masters in Psychology.

Most likely continue my education and see if I can start working in the career field I'm interested in.

Move and continue education

Move to Europe and continue Post secondary Education there, and intercultural studies.

My plan is to get a Masters in Fine Art so that I can teach at the college level while selling art through one or more top level galleries.

Not sure yet, either join the workforce, or graduate school.

Not sure. Either work, pursue more education, or pretty much anything. I have absolutely no idea.

Not sure. I see myself doing one of two things (although I am aware that new paths may reveal themselves along the way): working for a bit to save money to travel Europe, Africa, and SE Asia; or immediately continuing on to earn a masters at [graduate school].

Obtain my PhD.

Probably start and/or work for a non-profit organization. Live in a sustainable urban co-housing community. Maybe go to graduate school at some point.

### Further Studies (continued)

Short term internship then grad school

Start a career as a photojournalist working for newspapers, magazines, wire services etc. If necessary pursue a masters degree and maybe a doctorate.

Study abroad/ Travel

Transfer to a graduate program, receive a MS in counseling and help our Veterans with PTSD and/or depression/personality disorders.

Transfer to masters program elsewhere. Eventually, biological or ecological fieldwork. // not sure. Probably D.N.R. or D.F.&W.. Maybe graduate school

Transfer to the [state university] for my MSW. From there a job with [Native social services agency].

transfer to University of Washington for a masters program

Travel to Russia, perhaps study there

Uncertain at this time. But two options are to return to my home state of California, or to continue at TESC for a Masters Degree.

Unknown - maybe work in the field of my Bachelor's Degree or continue with post educational studies.

Well I am not entirely sure, but I am thinking about getting a teaching certification after I get my bachelors degree

Work @ a non-profit, educational or other human service related agency/ office. Write books. Pursue masters. Open my own agency. Teach adults.

work a couple of years as a paramedic, hopefully with the peace core, before continuing on to medical/graduate school.

work in the field of my degree for a few years then return to school to get a masters // Get a job in sciences. Grad school.

Work on my master's portfolio for a year then turn it in to a really good school

Work, Apply for MPA program // Work in management position with the company I was previously employed.

### Service to the Local, Regional, or Global Community

Apply the knowledge I've obtained during the course of my academic career. Make contribution of my talent, time and resources to the community. Help inspire others to achieve personal success academically, emotionally, financially and relationally.

Be gainfully employed in a career that is rewarding, personally satisfying, and contribute to the community at large.

Become the most fabulous social worker and help many families function better in the community.

Change the way people view children, and developmental delays

Change the world! Write books, research, help people & planet

Change the world.

Community outreach.

Don't know yet. Would like to be a writer, or an activist perhaps.

Find a career I enjoy and pursue it. Start a family and adopt a child. Make a change for the positive in the world. Pursue further education as well.

get into the MSW program at UW-Tacoma and work in the field of social work. I want to help others.

Help fix the world in the best way I can by using knowledge I gain during my time here

Human rights advocacy, international politics and law

I am hoping to obtain a double Bachelors. I plan on continuing my work at [state bureau] and would eventually like to teach or instruct. I will continue my involvement with [youth organization].

I am still unsure but I would like to have the skills necessary to travel to post-conflict areas of Africa and to help with the reconstruction of education systems.

I am unsure, but I believe I would like to become a counselor....I would like to help people heal, and help them learn how to heal themselves

I have no idea. I want to spend time in another country, I want to teach, I want to be a community organizer, and I want to go to grad school.

I hope to work as a farmer and encourage people to do similar so as to combat the industrial food system.

### Service to the Local, Regional, or Global Community (continued)

I plan on applying to graduate school for my Masters in Clinical Psychology, and finding work in the community where I am involved with an at-risk population.

I plan on becoming the best teacher I can possibly be. My goal is to reach out to those students that are off track of graduating that need the assistance and time to get them back on track. And hopefully coach for a varsity team or junior varsity and work my way up as well as teach.

I plan to travel throughout every continent either working with youth groups in recreational activities or with an environmental group

I plan to work for the government in an effort to better my country and my family.

I want to get a job that i enjoy helping build policies to protect our environment. I also want to make studies and experiments on our environment.

I want to use my knowledge that I gained from the Evergreen State College to bring people together from different cultural backgrounds. I also would like to emphasize on preserving my heritage and culture through creative and expressive art in communities.

I will hopefully have gained the experience and skills to be able to find the best avenue for me to contribute to the health of my community and the efficient use of our natural resources.

I would help integrate civilizations into the ecosystem they inhabit.

live, love, learn "make the world a better place"

Not sure yet, possibly the Peace Corps or a similar program // Community service projects, traveling, environmental education

Open numerous businesses to revitalize the earth and support a permaculture institute

Reinforce the importance of a enviromental shift in the way objects are disposed.

save the world

To continue use the knowledge and skills that I have developed in support of a healthy community and environment.

Transfer to a graduate program, receive a MS in counseling and help our Veterans with PTSD and/or depression/personality disorders.

Travel and study traditional forms of agriculture. Then translate this knowledge into the designing of models that can be used to make commercial agriculture more sustainable for modern society.

Travel for one year before working full time. volunteer abroad.

Travel, volunteer, work, live.

Use my degree, and the knowledge from the fields Ive studies, to get a job with Noah, or a Zoo, or a Animal Conservation nonprofit (snowleopards, african wild dogs, etc). Ideally I would be contributing to the community and to a animal species survival. Working w local communities to further conservation work is very important to me.

Work @ a non-profit, educational or other human service related agency/ office. Write books. Pursue masters. Open my own agency. Teach adults.

Work at making the built environment better for the environment, people and community.

Work in local or state government, possibly in the education setting. // Work in government to make changes for the better of the community

Working with communities and organizations to better our planet, people and understand of our environment

### Travel

After Evergreen, graduate school. After that, travel, but not sure.

Continue my studies in a graduate program at another school, hopefully abroad. I plan on using my skills that Evergreen has supplied in life and future studies.
