

**The Evergreen State College**  
**Evergreen New Student Survey 2010**  
**Tacoma Program**

Please check the areas of mathematics/quantitative reasoning you have studied.

New students were asked to indicate the areas of quantitative reasoning that they had studied in high school or college. The chart and table below show the percentage of students who indicated that they had studied each area of quantitative reasoning.

*Percent of respondents who indicated having previously studied in each area of quantitative reasoning/mathematics.*

	Percent of Tacoma students (N=64)
Pre-algebra	82.8%
Beginning Algebra/Algebra I	73.4%
Intermediate Algebra/Algebra II	53.1%
Geometry	32.8%
Trigonometry	15.6%
Pre-calculus	28.1%
Calculus	14.1%
Probability and Statistics	20.3%
Business Math (including accounting)	51.6%
Logic/Symbolic Reasoning	12.5%
Other	7.8%

Numbers exclude one respondent who skipped this question.

**Description of "Other" by new Tacoma students:**

Basic Math (2)

Medical Math

Technical Math
