September 26, 2018

Dear Teaching Colleague,

We are writing to invite you and your students to the Sixteenth Annual Evergreen Science Carnival which will be held on our campus on Friday, May 31, 2019 from 10 a.m. to 3 p.m.

During this annual event, which is **free of charge to attendees**, science students at The Evergreen State College will present results of their research and projects from their course work, as well as fun and educational hands-on lab activities. This is a wonderful way for your students to participate in an active science learning environment through workshops, hands-on labs, and lecture presentations. There will be presentations covering all areas of science (biology, chemistry, physics, computer science, astronomy, geology, ecology, and entomology, to name a few).

We will be delighted if you would bring your entire class to this event. Be assured that there will be informative science presentations for all age groups at all levels of preparation (from elementary school to Advanced Placement high school to college students). We are happy to validate your students' attendance if that would be helpful for earning extra credits.

Please visit our website for information (you can browse the schedule from the last Science Carnival) and stay tuned to this site for more information about this year's event as the day draws closer.
<http://www.evergreen.edu/events/sciencecarnival/>

We hope that you will bring your enthusiasm for learning and curiosity and join us for a day of fun and interactive science learning at The Evergreen State College on May 31, 2019. If you have any questions please do not hesitate to contact me. Thank you.

Sincerely,

Dharshi Bopegedera, Ph.D.
(Member of the Faculty, Chemistry)

For the Science Carnival Organizing Committee:
Dr. Dharshi Bopegedera (Member of the Faculty, Chemistry)
Dr. Lalita Calabria (Member of the Faculty, Botany and Natural History Collections Manager)
Dr. Robin Bond (Member of the Faculty, Chemistry)
